*Dr. Ferrell Seymore - OHS Principal*

Congratulations to four of our high school seniors from Opelika for winning AMEA Scholarships. Because of the partnership between Alabama Municipal Electric Authority (AMEA) and Opelika Power Services these students will enroll in a four-year college/university, community college, and/or vocational school in Alabama this year.

Each will receive a \$2,500 scholarship. AMEA received a total of 200 scholarship applications in the 2017 program. Each of these students prove to be leaders in our community. We're happy to be part of the AMEA Scholarship program and glad to help these young folks as they start their futures. To be eligible for the AMEA scholarships, a student's family must receive electric service from OPS, an AMEA Member city electric utility, and the student must attend an Alabama college/university or vocational school.
